MEDIA RELEASE – December 20, 2019

Professional Tennis Registry Has Coach Education Program Re-Accredited
One of only 30 accredited programs nationwide

The United States Center for Coaching Excellence (USCCE) announces that the Professional Tennis Registry successfully re-accredited its coaching education program under the USCCE’s National Committee for Accreditation of Coaching Education (NCACE). Their Level 5 Performance Coach Education Program was re-accredited at Level 5.

Through this accreditation process, NCACE ensures that the program adheres to the characteristics of excellence as prescribed by SHAPE America’s National Standards for Sport Coaches. These standards feature eight domains of coaching responsibilities and within them, 40 standards and subsequent benchmarks representing the body of knowledge associated with each coaching responsibility and provide concrete examples of actions and orientations that constitute coaching competence. Accreditation reviewers noted that the program provided “in depth coverage of all topics for coaching including a substantial number of hours in the classroom and on the court.”

The Professional Tennis Registry originally accredited its coaching program in 2011 and still is one of only 30 accredited coach education programs within the United States. They clearly stand out as a leader in the United States in the preparation of coaches.

About the United States Center for Coaching Excellence and the National Committee for Accreditation of Coaching Education
The United States Center for Coaching Excellence is the premier authority on coaching education in the United States, providing coaching education programming support and accreditation of program through NCACE. NCACE offers accreditation and national recognition to sport organizations and institutions responsible for the preparation of coaches at any and all levels of sport. The rigorous review process ensures alignment with SHAPE America’s National Standards for Sport Coaches, and that coaches are trained to effectively meet the unique developmental needs of every athlete. Through forward-thinking leadership and our team of expert reviewers, the USCCE is uniquely positioned to provide the highest quality, empirically-based guidance for the creation, implementation and evaluation of coaching education programs.
